---

## Summary

Full-Stack web developer leveraging an interactive entertainment background to build a more engaging user experience on the web. Recently earned a certificate in full stack development from the UCLA Extension, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. Known as a rapid problem solver passionate about developing experiences, with a focus on platform inclusive design and development. With each project, my aim is to best engage my audience for a memorable user experience. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

## Experience

### **Zest Finance** | Engineer Intern

- Updated auto generation of documentation files to reduce tech debt in code base
- Observed and documented experiences as new developer for use in improving onboarding of future employees
- Coordinate decision making among multiple interested parties

### **UCSF Gazzaley Lab** | Game Design Intern

- Created designs that lead to engaging experiences for players without compromising data collection
- Suggested mechanics and designs based on proven examples
- Introduced user experience as a key performance indicator correlated with data produced

## Projects

### **YouMDB**

Browser based movie search and recommendation app

- Created logic in JavaScript for navigating between new searches and the resulting recommendations
- Utilized OMDb and TasteDive APIs to acquire relevant information on searched movies

## Education

### **University of Southern California**

Bachelor of Arts in Interactive Entertainment

### **UCLA Extension**

Full-Stack Bootcamp Certificate

## Skills

### **Languages**

HTML, CSS, JS, C#, R, Python

### **Technologies**

Unity, Unreal Engine 4
